The British Ministry in an Ugly and Pugnscious Humor-Russian Explanations.

AFGHANISTAN AFFAIRS.

The British Minister Keeping a Shark Look Out for Ayoub Khan.

TEHERAN, April 11 .- Ayoub Khan, the ex-Ameer of Afghanistan, who has been residing here for some time on a pension of \$1,750 per month from the British Government, has again tried to leave Persia for Afghanistan. The British Minister has kept a close watch on Ayoub Khan ever since his return to this city after his attempt, several months ago, to leave Persis, and has redoubled his vigilance since the Russe-Aighan difficulty began. Learning from letters which fell into his hands that the ex-Ameer was again plauning to escape to Afghanistan, the British Minister complained to the Shah and the latter arrested Ayoub and has confined him in the citadel. Persian officials have taken possession of Ayoub's house.

The British Ministry Forced by Public Opinion to Take a Pugnacious Attitude. LONDON, April 11.-The war office is overwhelmed with offers of service, sent in by army, militia and volunteer officers. The recruiting depots in London and the provinces are daily besleged by men anxious to enter the military service in view of the prospect of war with Russia. Suitable applicants are being accepted as rapidly

All the Admirals of the British navy have been notified to hold themselves in readiness for active service. A special injunction has been sent by the Admirality to Vice Admiral Lord John Hay, commanding the British squadron in the Mediterranean, to hold his fleet ready for service. A very determined and grave position has been assumed by the English Government toward Russia concerning the Penjdeh incident. The Ministry, it appears, has been coerced by the ag-gressiveness of public opinion into a tardy, but evidently a determined attitude of pugnacity. To-day, Earl Granville, British Foreign Minister, advised Baron De Staal, the Russian Ambassa dor to London, that the British Government had decided that whatever the nature of the explana-tion of General Komaroff's action might be, Great Britian would not allow any further discussion concerning the delimitation of the Alghan frontier to go on unfil the Russian troops in the disputed territory back to the positions which they occupied at the time England appointed her part of the commission to adjust the Afghan frontier. As this was nearly a year ago, and as almost all of the Russian advance has been made in the interval, it is difficult to besieve that Russia will seriously attempt to reach an amica-

ble understanding. Count Von Munster, the German Ambassador to London, is given as sutherity for a most signifi-cant utterance on the part of the British Ministers. The German Minister states that at a conference upon the Afghan situation, held yester-day, Earl Granville declared that Giadstone had reso, ved that it was impossible to consent to a continuance of a diplometic discussion with Europe unless Engrand was guaranteed security against naving the results of the controversy imperilled by collisions on the disputed frontier, such as had occurred on the Kushk. At the German and Russian Embasses here the opinion is expressed that the dispute between

the Czar and Great Pritain has actually reached

its final phase in diplomacy. M. LeGters, the Russian Prime Minister, through Baron De "as", has offered to abandon the Russian proposal to extend the line of the debatable zone proposed by Englandso as to in-clude the Parapamisters bountains and recut to the line suggested in the Lessar proposals. This offer on the part of the Russian Premier, while apparently containing a concession, is considered to be really a ruse to modify the effects of General Koma, off's attack and to gain time. The Lessar line, while within the Parapamissian line, would hardly be acceptable to English statesmen, although the proposal could be made to appear to the British public as a retreat on the part of Russia, as Farl Granville's demand for the withdrawal of the Russian troops was telegraphed to Sir Edward Thornton, at St. Petersburg, after the receipt of M. DeGier's propospl, it is inferred that the Russian Premier's overtures have not met with acceptance, and have made no impression upon the English Government. Both Russia and England are busily engaged in correspondence with other powers, and are actively courting alliances. If the English negotiations with Turkey succeed, the most important immendiate result will be the opening of the Dardenalles to the

A Russian Official Paper Teaching English Statesmen How to Act.

St. Petersburg, April 11 .- The Journal de St. Petersburg, speaking evidently by official inspiration, comments on the recent Government utterances in the British Parliament about the Penjach incident as permature. It says it thinks it would have been profitable for the English ministers to have suspended judgment until the receipt of more complete conformation. They should have acted on the supposition that it was unlikely that Russian Generals acquainted with the intentions of the Russian Government, acted without good reason. They should have borne in mind that collisions such as that which occurred on the Kushk, are always possible in the presence of a violent and undisciplined Asiatic population. The Penjdeh incident, concludes the Journal, was certainly an untoward event because it may adversely affect the negotiations pending between Russia and England which still lastify the hope for pages. still justify the hope for peace. The war feeling is overwhelmingly strong. The Czar appeared at the theater last evening. The audience, still enthusiastic over the news from Penjdeh on the general assumption that Komaroff's conduct had the imperial approval, arose when they saw the Czar and shook the building with an ovation of

The Situation From a Russian Point of

View. VIENNA, April 11.-Vienna German circles entertain very peaceful opinions about the Anglo, Russian disputes. The Czar has informed both the Vienna and the Berlin Cabluets that he does not desire war. The English demand for the retirement of General Komaroft's forces from their present position will, however, not be acceded to was the provocation leading to the recent attack. This view of the matter, entertained by Russia, is also held by Austria and Germany. Both these powers support the Russian Government in this explanation of the recent battle. It is a noteworthy fact that Kalkoff's Weskauer Journal, on the 7th of April, published landscape sketches of Penjdeh, and prophesied the recent

Russia continues her naval and military preparations with great energy. Admiral Shestakoff has ordered all the torpedo boats to be sent to the Baitic and the Black Sea. Torpedoes have just been sunk at the canal binding St. Petersburg with the sea. Kronstadt, St. Petersburg and the Palace at Krsanoe selo are now connected by tele-phone, so that the Czar will be informed of every movement in case of an attack by the English fleet. The Russian fleet, has been in a thorough state of resdiness since the 2d of April.
Komaroff's brother, the editor of the Russian
Journal Svet, announces that Russia intends to send 100,000 men to Herat as scon as the English advance to Pischin.

The Ameer and Dufferin Togats an Insult BRUSSKIS, April 11.-Le Nord, the most rabid pro-Eussian newspaper in Belgium, now predicts war between Russia and England. Le Nord is regarded as a semi-official organ of the Russian Government, and this article is believed to have been inspired. The paper has heretofore expressed sanguine hopes of peace, but it now says that war is impending. It says that the open threats and insults to Russia contained in the toasts of Ameer Abdurraham and Lord Dufferin were equivalent to a deciaration of war, even while England was appealing for concellation.

An Ovation to the Czar. St. Patersburg, April 11. - The Czarand Czarind and members of the Royal family attended a concert this evening at the Grand Theater, in this city, for the benefit of invalid soldiers. The presence of the Czar aroused the greatest enthusiasm. The National anthem was sung by the whole audience, and when the Czar advanced to the front of his box and bowed his thanks, he was greeted with a hurricane of cheers. The evation was continued outside the theater and the Royal family was followed by crowds of people to the gates of the Palace.

GENERAL FOREIGN NEWS.

Bismarck Says There Will be no Anglo-Russian War.

Stock Market and German Influence. LONDON, April 11 .- Selling on the Stock Exchange was resumed this afternoon by operators for a fall and a panic, which was imminent, was only checked by continued purchases for Berlin account. The German houses rely on the truth of the reports that the Emperor of Germany is assicious in urging the Czar to oppose the war party in Russia, and also that Prince Bismarck, if a point is reached where the diplomatic relations of England and Russia are broken, will offer the mediation of Germany.

The Freg Lake Massacre-More Troops

WINNEPEG, April 11 -Tae story of the Frog Lake massacre was told by H. Quinn, a nephew of the Indian Agent at that point, who escaped from the Indians. Fourteen persons are known to have been killed, and probably many others met the same fate. It is known that the Indians have attacked Fort Fitt, but whether successfully or not, can not be ascertained, as the fort was held by only twenty-five policemen and a handful of settlers, and was surrounded by 1,100 Indians, headed by Big Bear, one of the most ferocious chiefs in the Northwest. It is believed that the assault must have succeeded and the garrison been killed. The Indians at Saddle Rock have pillaged the Government warehouse and gone to join the rebels.

At Battleford a party of forty Indians approached

the fort and were fired upon. Two were killed. The others retreated. The rebels have taken all the provisions from the Saskatoon settlement. It is said that the Blackfeet and Bloods refuse to smoke the tobacco brought by the Cree runners. At Turtle Mountain the house of a white settler, named Perritt, has been sacked. The Indians are coming in from the American side in twos and threes, and assembling at Wood Mountain. One division of Canadian troops is now north of Toschwood Hills advancing toward the rebel headquarters; another is going by way of the Saskachewan River to Prince Albert, while a third proceeds on Monday to Calgary, and thence to Edmonton and Battleford. Consul Taylor says that 1,700 American troops are patrolling the border to enforce the United States neugrality

QUEBEC, April 11,-The cavalry school received fresh orders last night and will probably leave tomorrow for the Northwest. HALIFAN, April 11.-The Halifax Battalion of Fusileers received orders last night to leave this morning for the front,

The Body of a Woman Found Packed in a Box Expressed From Chicago to Lafayette. Ind.

LAFAYETTE, [Ind., April 10,-This afternoon a United States Express agent delivered a box to Charles Shilling, a grocer's clerk. The charges were paid, and Shilling at once knocked off the lid and began removing the sawdust, when, to his horor, a human hand was disclosed. Further investigation showed an entire body packed in the box. The body is that of a woman. flesh has been removed from the bones, and the latter look as though they had been in brine. The smill was and the still quite offensive. Spilling returned the box to the company. All the information that can be learned is that the box was sent from Chicago and charges paid. On the lid is written in pencil Shilling's name and Lafayette, Ind., and over this is his name and address, evidently lettered at the express office. The box bears the stamp of the main office and the name C. W. Cook, evidently the express egent who received it. Why it should be sent to Shilling is a mystery. The express agent here will give the lox and contents to the

Gnatema'a, Central America and Mexico. St. Louis, Mo., April;11.-A correspondent of the Globe-Democrat telegraphs from the City of Mexico that news has been received there that the Congress of Guatemala has declared as provisional President, Seno. Alejandra Sentraldi until a general election can be held. Seniraldi was an intimate friend of the late President Barrios and for many years they were partners in business It is believed he will to carry out the deavor to carry out the policy of his ambitious partner. General Barrundia, the Minister of War of the deceased dictator, continues to act in the same capacity to President Sinivaldi. Barrunder is pushing war preparations with the greatest speed and energy, and is supply-ing arms to all who ask for them. The country is in a great featr of excitement over the tragic death of General Barrios and his son. The resolve to avenge the death of Barrios has become a national cry, and all late information from Gautemala indicates that the people will make a most determined struggle to carry out the purposes of Barrios, and unity Central America. General Sghasia Mariscal, Minister of foreign relations of Mexico, takes quite a different view of Guatemalian affairs. In an interview Maricala said he considered the power of Guate malia completely broken. He states positively that it is neither the desire of Mexicans or executive to declare war against Guatemala. Thewarlike preparations were only ordinary precautions which the times and circumstances warranted.

On of the Most Exciting Scenes Ever Witnessed on the Floor of the Exchange-The War News Leads Prices Up.

Special to the Sentinei.

CHICAGO, April 11 .- The past week on 'Change as been full of surprises. The sentiment of the wheat sit had gradually changed over Sunday, and the crowd, from being violent bears on heavy stocks, had become bullish on low prices. They all wanted to buy, and for once they all were right. The week's decrease in the visible supply, although but little over one-half a million bushels, was considered encouraging by holders. Reports of a badly damaged winter wheat crop and a largely decreased acreage of spring sown grain came in as steadily as before, but what was more to the purpose operators began to believe them. Hence there was a healthy running up all around, an numerous outside orders were at tracted in. The trading of the early days, however, although active was very tame, as compared with the excitement which developed when cables announced a commencement of hostilities by the Russians, and that war was inevitable. Never in the history of the board has the floor of the Exchange presented a scene of wilder excitement Operators tumbled over in their mad rush to buy everything in sight.

The surging mass of sweltering humanity kept up such a yelling and pushing and pulling that i seemed next to impossible to do anything. Val ues went up like a rocket, registering an advance of 5c in as many minutes. Country traders caught the fever and rushed along their orders. Even the coolest bears like Eldredge, Jones and Hobbs, were thrown into a panic, and the demoralization of the little "shorts" were beyond description Margins were freely called and bank accounts su! fered badly. Kent, who has been loading up for the past three weeks, stood about cheerfully watching the unexpected rise and taking his profits near the top. Only once before was anything spproachive such a turmoil witnessed and that was directly after the formal declaration of war

between France and Prussia. What the near future of the market will be it is useless to try to predict. In the event of a continued war abroad, the supplies in this country which now look so large will doubt'es melt away with great rapidity, and the limit to which prices may rise can not be set. All agree there is noth ing in the new clop on which to base a bear feeling, and if the surplus now on hand can be di posed of, there seems reason to believe that the old scale, by which wheat at a dollar was considered par, may be restored. Manifestly, "short" sales are dangerous, as it is claimed by many couservative men that quotations are yet no higher than is warranted by the home situation. Still, o give the names of those who are heavily "long," t would be necessary to publish almost the entire membership of the board, and sudden peace news may cause a panic among holders. In any case, sharp and severe fluctuations can be counted on Although the movement was slower, the war fe ver struck the corn dealers with considerable orce. There were not "short" lines enough out to cause any such mad scramble to get ashore as was witnessed in the wheat pit, but the market was very firm. Corn is more staple and the trade in it in a more healthy condition than that of wheat. There has, too, been a decided increase in the amount of business transacted in it during the past few days, and the statistical position is cer-tainly strong. Lester has been a heavy buyer. Provisions followed grain in the upward march, notwithstanding the liberal sales of Armour and orber packers, who evidently were not prepared for an advance just yet. "Shorts" were the principal buyers. The cash memand for product is picking up fast, now that Lent is over, but receipts of hogs continue large.
